

ShopVIEW

Business Intelligence Dashboard

ShopVIEW is the latest addition to a growing list of enhancement applications for the MCM CommSHOP 360 Solution. This Business Intelligence dashboard application will provide executives, managers, and support personnel with the ability to quickly and easily view key performance indicators (KPIs) and real-time service based analysis about all maintenance shop activities.

By leveraging relevant data stored in the CommSHOP 360 core application, ShopVIEW presents KPIs in a precise, summarized visual for shop executives and staff to evaluate and monitor on a daily basis. This application ensures that the operational management staff has everything they need at the tip of their fingertips, aiding with efficient decision making and maximization of resources.

CORE APP COMPATIBILITY

CommSHOP 360° only
